## A DIEU TO MORLEY.

### Coast League Takes His Franchise.

Manager of Los Angeles Team Demands Only His Club Forfeit.

McCredie, Cal Ewing and Evans Now Owners of the Angel Bunch.

If Unsuccessful in Securing Lease They Will Remove to Sacramento.

(BY DIRECT WIRE TO THE TIMES.)

OSAKLAND, May 14.—[Exclusive Dispatch.] I have agreed to turn over the Los Angeles baseball club and franchise to the Pacific Coast Baseball League directors for nothing, except the return of our deposit of \$1500.

"Who will be my successor I do not know, but I do know that I found it impossible to satisfy the league directors and many of the Los Angeles fans," so I made this agreement, that Los Angeles would not be deprived of baseball this year as I did not think I could afford to take the risk.

"The directors agreed to continue the league, but voted to reduce the salary limit to \$2000 per month.

"Success to my successor."

OAKLAND, May 14.—[Exclusive Dispatch.] Managers of various clubs in the Pacific Coast Baseball League held a meeting in this city, tonight, at which were present Cal Ewing, representing San Francisco; R. N. Walters of Oakland; Ed. McCredie of Portland; J. Agnew of Seattle and President Evans of Fresno.

The most important business before the meeting was the withdrawal of James F. Morley as a league manager and the disposal of the Los Angeles club's franchise.

Morley stated that, owing to the number of other enterprises in which he was engaged, he desired to sever his connection with baseball.

The manager of the Angels made a very fair proposition to the League directors in the matter of the Los Angeles franchise, asking only that he be given the price of his club forfeit, \$1500, as compensation for its surrender.

His terms were promptly accepted, McCredie, Ewing and Evans purchasing the franchise at the price named.

LEASE ON SACRAMENTO. In buying out Morley, his fellow-managers must shoulder a new responsibility in securing the renewal of the lease on the Los Angeles ballgrounds, which will expire May 14. While they anticipate some difficulty in securing an extension of the lease, they hope to be successful. If they are unsuccessful in this, the Angels will be transferred to Sacramento. It was agreed that \$2000 limit be placed on the monthly payroll of each club. Heretofore, the salaries paid ran the budget from \$2800 up to as high as \$4000. The idea now is to put all teams on an equal footing, so far as expenses are concerned.

Consideration of the schedule was deferred for consideration at the meeting to be held tomorrow morning.

Ewing, Evans and McCredie will buy Seattle's franchise in case it is forfeited. James Agnew of Seattle wired tonight for a definite decision.

ATTACK ON UNION PACIFIC. Interstate Commerce Commission Has a Task of Investigating the Company's Dealings in Coal.

OMAHA (Neb.) May 14.—[Exclusive Dispatch.] The relations existing between the Union Pacific Railroad Company and the Union Pacific Coal Company are to be investigated by the Interstate Commerce Commission, under the joint resolution of Congress instructing the commission to make examinations into the subject of railroad discriminations and monopolies in coal and oil.

Complaints against the Union Pacific Railroad Company are being prepared by Elmer E. Thomas of Omaha, representing the Sioux City and Rock Springs Coal Company. It is alleged that the railroad company, through its subsidiary corporation, holds a monopoly in the coal business in Wyoming. Charges of discrimination and unlawful combination will be made.

MRS. JEFF DAVIS BETTER. NEW YORK, May 14.—The condition of Mrs. Jefferson Davis was reported tonight as much improved.

## MONNETT COURTS INQUIRY.

Allegation That He Was Bribed by Certain Railways Repudiated by Ohio's Former Attorney-General.

(BY DIRECT WIRE TO THE TIMES.) CLEVELAND (O.) May 14.—[Exclusive Dispatch.] Replying to an allegation that former Atty-Gen. Monnett had been bribed by certain railroads, Monnett tonight issued a statement, saying in part:

"We court the fullest investigation, and should there be any evidence upon which to reopen the case, Judge Hugh and myself stand ready to continue the case in the interest of the county, if so desired."

"The suit was not in Judge Tolpaj's court, and he had no jurisdiction. The judgment was rendered by the Crawford County Circuit Court, and a decree of ouster entered against the Toledo and Ohio Central Railway Company, from paralleling the Rock Island Valley Railway Company by a common ownership of stock. The companies recognized the decree, reorganized, and have since been under separate ownership."

## STRUCK DOWN BY A METEORITE.

ANDREW GUYSO'S SKULL FRACTURED BY THE STONE.

While Walking Home He Saw a Flash in the Sky and Was Struck Down as if by Lightning—Missile the Size of an Orange With Strange Corrugations.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, May 14.—[Exclusive Dispatch.] A meteorite today struck Andrew Guyso of Roton Hill, near South Norwalk, Ct., so terrible a blow that he was found senseless near his home with a crushed and fractured skull.

The stone is the size of an orange, strangely corrugated and marked with widdmanstienite, or peculiar crystalline figures. Mineralogists who saw it declare it is undoubtedly of meteoric origin.

The aerolite consists of metallic iron alloyed with a small percentage of nickel.

Guyso was removed to the South Norwalk Hospital, and in his momentary consciousness declared that, as he was walking home he saw a flash in the sky, and was suddenly struck down as if by lightning.

Dr. Jean Dumortier operated upon Guyso, and it is held he may live.

GREY TOWN (Natal) May 14.—Serious fighting is progressing in Zululand. Heavy gun-firing was heard today at Krantzkop.

NATAL NATIVES RISING. (BY THE ASSOCIATED PRESS—P.M.)

DURBAN (Natal) May 14.—Several native tribes on the Natal side of the Tugela River are reported to be ready to rise. At Ekobole, it is reported that Bambata, the insurgent Zulu chief, has crossed into Natal. Heavy gun firing was heard, May 13, from Nkandla, which recommenced this afternoon.

WAS HE PUSHED OFF? SYLVANIA (O.) May 14.—[Exclusive Dispatch.] W. H. Blair of Madisonville, a very prominent citizen, was probably fatally injured near here, this morning, by falling off a train. The Sheriff is investigating, as it is thought Blair was pushed off in an attempt at murder by a man and woman who accompanied him.

## CHICAGO BAD EVERY DAY.

"Time Table of Crime" Prepared by a Lawyer Shows Conditions Are Horrible.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, May 14.—[Exclusive Dispatch.] Chicago's "time table of crime" was read before the Chicago Presbytery today. Its author is McKendzie Cleland, an attorney, and it was he who presented the boiled down crystallized record of Chicago's bad behavior. Incidentally, Cleland roundly scored Mayor Dunne for failure to suppress crime and enforce the law.

The lawyer studied police reports, coroner's statistics and other information of Chicago's wickedness. Then he put down and read to the ministers assertions that Chicago has:

A street disturbance every 6 seconds.

An arrest by the police every 7 1/2 minutes.

An arrest for drunkenness every 15 minutes.

An assault and battery case every 27 minutes.

A new larceny case every 20 minutes.

A burglary every 3 hours.

A hold-up every 6 hours.

Two suicides every day.

One murder each day.

## PRESIDENT REPLIES TO TILLMAN ET AL.

### How Chandler Was Brought Into the Rate Bill Controversy.

Chief Executive Was Urged to See Him as the Representative of the South Carolina Democrat—Official Correspondence from the White House—Clear Cut and Authoritative Refutation of Ill-Considered Attack.

(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, May 14.—Dr. Edward Everett Hale, chaplain of the Senate, read to that body on its reconvening, today, this text from the Scriptures:

"Blessed are the peacemakers, for they shall be called the children of God."

"Blessed are ye when men shall revile you and persecute you, and shall say all manner of evil against you falsely for My sake."

WASHINGTON, May 14.—A lengthy statement bearing on the Rate Bill incident in the Senate, Saturday, was issued at the White House this evening. It consists of a letter from Atty-Gen. Moody to the President, giving an account, at the President's request, had by the President's direction with Senators Tillman and Bailey regarding the court-review feature of the pending rate legislation, and a letter from the President to Senator Allison on the question.

The President says that his opinion that Mr. Allison's amendment in no way changed the scope of the court-review provision in the original Hepburn bill is also the opinion of Atty-Gen. Moody and Secretaries Root and Taft.

The President adds that as to none of the amendments did he say to Chandler, or any one else, that he should insist upon having them in the bill as a condition of his approval.

THE CORRESPONDENCE. Following is the correspondence embraced in the statement given out by the White House this evening. The President's letter follows:

THE WHITE HOUSE, WASHINGTON, May 14, 1906.

My Dear Senator Allison: As Senator Tillman brought in your name in connection with mine, in the statement he made concerning our relations to the Rate Bill last Saturday, it is perhaps due to you that I should write you on the matter.

After the Rate Bill was reported from the committee, and after, by vote of the committee, Mr. Tillman, as representative of the committee, had been put in charge of it, many Senators and many outsiders came to see me with reference to it.

CHANDLER BROUGHT IN. Among others, I was asked to see ex-Senator Chandler, as representing Mr. Tillman, who was in charge of the bill. I stated in response that I was, of course, entirely willing to see Mr. Tillman personally, or to see Mr. Chandler, or any one else who could speak for him, and I accordingly directed my secretary to make an appointment of Mr. Chandler to see me.

My understanding was that he was the representative of Mr. Tillman.

MET ALL COMERS. In this first interview, he stated to me the views of Mr. Tillman, with seeming authority. He called on me several times. During the same period I saw other gentlemen who professed to give the views of other Senators.

In addition, I saw numerous Senators, both Republicans and Democrats, some of them once or twice, some of them many times. I also saw numerous outsiders, railroad men, shippers, newspaper men and students of traffic regulations, including, especially, the Attorney-General and the members of the Interstate Commerce Commission, and on two occasions I saw groups of newspaper men in a mass.

SAME STATEMENT TO ALL. To all of these, Senators, representatives of Senators and outsiders alike, I made the same statements; those that I made to Mr. Chandler being the same in substance that I made to you and to those of your colleagues of both political parties with whom I had any extended conferences on the subject.

The letter of the Attorney-General, which I enclose, shows fully the facts.

As to the conference which, at my instance, he held with Senators Tillman and Bailey. Those conferences were precisely such as, at my instance, he held with many other Senators to determine the phraseology and discuss the effect of amendments proposed by them.

POSITION AGAIN DEFINED. To all whom I saw I stated that the Hepburn bill was in its essence entirely satisfactory to me. The Hepburn bill as it passed the House simply recognized the right of review by the courts—that is, the jurisdiction of the courts—but did not attempt to define the limits of their jurisdiction. This was in accordance with the ideas of the Attorney-General, his belief being that thereby we avoided all danger of the bill being declared unconstitutional because of attempts to confer either too much or too little jurisdiction on the courts.

I also repeatedly stated that, while it was entirely satisfactory to me simply to leave the Hepburn bill in substance as it was; that is, with the recognition of the jurisdiction of the courts, but without any attempt to define that jurisdiction now, that I was entirely willing that there should be a definition, provided that this definition did not seek to grant a broad review, but explicitly narrowed it to the two subjects which, as a matter of fact, I believe that the courts would alone consider in case. There was no attempt to define the limits of their review to whether the commission had acted ultra vires, and as to whether any man's constitutional rights had been impaired. I stated that if the question of defining or limiting the review was brought up at all, I personally felt that this was the way in which it should be limited or defined.

DEMINES CHANDLER. At different times, at least a score of tentative amendments were either prepared by the Attorney-General, at the request of Senators, or submitted to me by Senators. As to many of the amendments (including among others the substance of the so-called Long, Overman, Bacon and Spooner amendments) I stated that I should be entirely satisfied to have them in the bill; as to others, I suggested modifications which would make them satisfactory. As to none did I ever say, either to Mr. Chandler or to any one else, that I should insist upon having them in the bill as a condition of my approving it. On the contrary, I was always most careful to state that I was not trying to dictate any particular programme of action.

In no case, either in the case of Mr. Chandler, or in the case of any one else, was there the slightest opportunity for any honest misconception of my attitude, or any belief that I had pledged myself specifically to one and only one amendment or set of amendments, or that I would not be satisfied with any amendment which preserved the essential feature of the Hepburn bill, as it came from the House.

You will doubtless recall that, in the course of the several visits that you personally made me, we discussed a number of these proposed amendments, trying to find out for which one there could be obtained sufficient

would be Senators long after Roosevelt had left the White House, and that, since he recognized his defeat, he was willing for us to go on and make the bill in accordance with our ideas, provided only that we would allow him and his crowd to get the credit, and not the President.

DARED NOT RISK IT. "Neither Bailey nor myself entertained the Aldrich proposition seriously, for several reasons, the chief of which was that we realized the country would misunderstand our motive, should we cooperate with the Aldrich element, though we could make it plain that we had them whipped to a standstill, as was actually the case until the President deserted us."

ALDRICH ADMITS DEFEAT. "He said we had him and his crowd whipped; that he and I and Bailey

body of assent, to secure its passage and the passage of the rate bill.

NOT AN INTERMEDIARY. To almost every amendment proposed by any one, I found that there were other excellent men who objected or who at least wished to change it, and I finally became convinced that it was impossible for Senators with advantage to use me as the intermediary in coming to an agreement with their colleagues, especially when they only communicated with me through another intermediary, and I earnestly suggested to all whom I spoke that they should communicate with you, whose purposes and mine were identical.

DEMOCRATS DISAGREE. About this time I was informed by various Democratic Senators that they could not come to an agreement upon any amendment, and that the best chance for success lay in passing the Hepburn bill substantially unchanged.

I was informed and believed that this was Senator Bailey's view, and a number of the Republican Senators who favored the bill expressed the same opinion.

THE ALLISON AMENDMENT. Shortly after this, you, in company with Senator Cullum, called upon me with the amendment, which is now commonly known as the Allison amendment. I told you that while I should prefer the Long and Overman amendments, yet that your amendment was entirely satisfactory.

Your amendment does not in the slightest degree weaken or injure the Hepburn bill. It merely expresses what the friends have always asserted was implied by the terms of the bill. I may add that, in my opinion, your amendment in no way changed, whether by diminishing or enlarging, the scope of the court review as provided in the original Hepburn bill. This is also the opinion of the Attorney-General, of Mr. Root and Mr. Taft. Their judgment is that the amendment merely avoids the criticism that the Hepburn bill would be constitutionally valid, in not expressly providing the court review which its supporters have always contended was plainly implied in the original language.

The original Hepburn bill stated that the venue in certain actions was in certain courts; the amendment states that these courts shall have jurisdiction to consider such actions. To my mind it seems difficult to assert that this works any change whatever in the principle of the bill.

Yours sincerely,

[Signed:]

THEODORE ROOSEVELT.

Hon. William B. Allison, United States Senator.

ATTORNEY-GENERAL'S LETTER. PRESIDENT'S LEGAL ADVICE. The Attorney-General's letter to the President is as follows:

OFFICE OF THE ATTORNEY-GENERAL.

Washington (D. C.) May 14.

My dear Mr. President: I send, at your request, an account of the conference which I had by your direction with Senators Tillman and Bailey upon the subject of the court review feature of the pending rate legislation.

On April 14, you told me that Messrs. Tillman and Bailey had communicated with you through a third person, informing you that they were willing to support an amendment to the Hepburn bill, which, while expressly conferring jurisdiction upon courts, to review the action of the commission, should limit the review to the two questions of the authority of the commission and the constitutionality of its action, and include a provision forbidding the issuance of interlocutory injunctions.

You told me that they were not willing to confer directly with you, but would meet me.

POWER OF CONGRESS. You asked me if I thought that Congress had the power to prohibit the issuance of interlocutory injunctions by courts inferior to the Supreme Court, and I told you that, having read part only of the debate upon that question, the subject being new to me, I had not formed a final opinion.

You then asked me whether, if such a provision were declared unconstitutional, it would affect other provisions of the law. I told you that, in my opinion, it would not, as the provision would be easily separable from the remainder of the law.

Recalling the advice which I had the honor to offer to you, that you should not at any stage become finally committed beyond recall to any form of language in any part of the bill, and affirming your belief in the wisdom of that course, you then said that a provision limiting the court review to the authority of the commission and the constitutionality of its acts, and a provision limiting the issuance of interlocutory injunctions as far as was constitutionally possible, would be acceptable to you, provided it was decided not to try to pass the Hepburn bill substantially unchanged, and you asked me to meet the gentlemen named in conference.

THE CHANDLER TALK. The conference was arranged by Chandler, and occurred on April 15. It was full and free. It would be impossible to state all that was said in a conference of two hours, but I think no false color is given to the conference by the following statement:

I informed the gentlemen of my belief that you desired, if the scope of the court review was to be expressed in the law at all, that it should be limited to the two subjects hereinbefore named; that in such case, the so-called Long amendment was acceptable to you; that you would be glad to see a rigid limitation on the issuance of interlocutory injunctions, if such limitations were possible; and I stated further, that I would not assume to agree to any form of language, however, for you, but would submit my proposed amendment to you for your consideration.

I also stated my doubt whether, in any event, it would be possible to

## MASS ALL BLEEDING.

### Bomb Outrage at Warsaw.

Police Captain Constantinoff, Is Torn Into Fragments. Seven Men Injured.

Soldiers Kill Assassin and Two Others and Wound Eleven People.

Lower House Struggling With Reply to Throne. Witte's Ideas.

(BY THE ASSOCIATED PRESS—P.M.)

WARSAW, May 15.—While Police Captain Constantinoff was standing in the Marshal'skaya street, this evening, with two policemen and four soldiers, a young man threw a bomb into the group. The explosion of the bomb literally tore Capt. Constantinoff to pieces, and severely wounded a policeman and six other persons.

The assassin tried to escape and, firing his revolver, wounded a soldier. The other soldiers replied with a volley, killing the assassin and two other persons.

The soldiers then attacked the people who had gathered, using their bayonets and the butts of their guns, wounding eleven persons, making a total of four killed and nineteen wounded.

The terrorists have sought Capt. Constantinoff's life since May Day of last year, when he ordered the soldiers to fire at a procession of Socialists, causing the death of thirty persons.

STRUGGLING WITH REPLY. POLITICS IN WRITING.

(BY THE ASSOCIATED PRESS—P.M.)

ST. PETERSBURG, May 14.—After struggling the whole day, until late this evening, over a draft of the reply to the speech from the throne, the members of the commission of the House postponed the final work of phrasing the document until 11 o'clock tomorrow morning.

The prospects are that full action on several points may not be reached before the adjournment of the House tomorrow. The struggle has centered mainly on the Agrarian plank, in which the peasant members found that the recommendations of the Constitutional Democratic convention, though calling for a large measure of forced expropriation, were not sweeping enough. The peasants wished the abandonment of most of the limitations and qualifications of the right of expropriation.

The debate on the address will be protracted, probably occupying two days. Besides the points of universal amnesty and abolishment of the death penalty, laid down in the instructions of the Lower House, the document adversely introduced the subjects of abolishment of the Council of the Empire and ministerial responsibility.

THE COUNCIL A WALL. Taking as its text Emperor Nicholas's pledge in his speech from the throne to maintain inviolate the instructions which he has granted, the address expresses the hope that this signifies that the country is on the road to a strictly constitutional system. This being true, the Parliament wishes to call attention to the fact that the Council of the Empire is a wall of separation between the Emperor and the people. Then, advocating a responsible ministry selected from the dominant party in Parliament, the address points out, as a great advantage of that system the cessation of attacks on the monarch.

"THE IRON HAND." The iron hand behind the respectful writing of the address peers out in the paragraph regarding amnesty, which contains these significant words: "There are some demands which cannot be refused, and this is one."

LABOR AND AUTONOMY. The workmen are remembered by a reference in the address to the need of amelioration in the condition of labor, while for the Poles and other nationalities the address, though avoiding the word "autonomy" and insisting on the maintenance of the bonds of the empire in full strength, speaks for the right of each nationality to its own language, customs and local self-administration.

CABINET'S AMNESTY VIEWS. It is reported that the Cabinet has practically decided upon an amnesty measure, which, though falling far short of the universality demanded by the Lower House, conforms to the idea of the Council of the Empire of granting pardon to all political offenders, except such as have been convicted of Agrarian murders or attempts to murder.

It is extremely significant that a strong faction in the Upper House of Parliament is advocating the necessity for meeting the popular demands. The members yesterday and today, in conference under the presidency of

## TILLMAN PITCHES FORK INTO ALDRICH.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, May 14.—[Exclusive Dispatch.] Another interesting contribution to the history of the troublesome career of the Railroad Rate Bill is made today by Senator Tillman, in which he details an alleged plot on the part of Senator Aldrich to "throw down" the President, with the assistance of himself and Senator Bailey. Tillman said:

"Aldrich came to both me and Bailey with a proposition that we permit him and the element he represents to get the credit for an effective rate bill, and thus completely shut the President out from any credit."

ALDRICH ADMITS DEFEAT. "He said we had him and his crowd whipped; that he and I and Bailey

Prince Eugene Troubetzkoy discussed this policy. By a large majority and against the protest of the reactionists, under Prince Kasmirine Rostkowski, it was decided to make a reply to the speech from the throne at the opening of Parliament.

**WITTE'S SPEECH.**  
Count Witte immediately aligned himself with the Liberals. In a speech which made a deep impression, he advocated the justice and necessity of amnesty for political prisoners. He favored, however, a compromise, declaring it would be folly to open the doors of the prisons to all. Amnesty should be restricted to those who are not guilty of political murder.

"If the prisons are opened," he observed sentimentally, "my advice to people with property is to give up what they can and get out of the country as soon as possible."

Count Witte's attitude indicates that he intends to make a bold bid for the Liberal leadership in the Lower House.

**SHIPOFF'S RADICALISM.**  
Shipoff of Moscow, who is natural leader of the progressive element in the Upper House, wanted the reply to the speech from the throne to go further and include a demand for the revision of the "fundamental law," but the majority thought that action in this direction should be initiated by the Lower House of Parliament.

The utterances of Shipoff and Von Sieversbach, controllers of the Empire, the only two Ministers present, were quite liberal in tone, recognizing the necessity for the government meeting the new conditions. The former's remarks, including the words "the imperative necessity for the reform of local administrations," were especially gratifying.

**WITTE'S IDEAS.**  
Ex-Premier Witte took again a prominent part in the conference of the Council of the Empire, successfully insisting that the adoption of a reply to the speech from the throne should be postponed until a regular meeting of the Council, at which representatives of the press shall be present, in order that the country may be informed as to arguments advanced on either side. Nevertheless, the projected reply to the speech from the throne, which probably will be adopted, already has been drafted, and has been seen by the Associated Press representative.

Though delicately expressed, the reply virtually contains a demand for the amnesty of present prisoners who are not guilty of murder or robbery. In other respects, the reply seems to be specially directed to disarm the suspicion that it is to be the role of the upper chamber to block legislation proposed by the lower house.

**THREE PRINCIPAL POINTS.**  
After expressing the deepest loyalty to the Emperor, the reply of the Council of the Empire contains these three principal points:

(1) An unequivocal endorsement of the Liberal regime.  
(2) Declaration of the intention to work in harmony with the lower house for large reforms.  
(3) Amnesty, the suggestion being so worded as not to wound the sensibility of the Emperor, calling attention to the fact that all remarkable occasions in Russian history have been marked by an act of grace, and urging the strong claim to clemency of those who, while striving for liberty, transgressed lawful limitations without being guilty of crime.

**RIOTING AT VOLODOGA.**  
BY THE ASSOCIATED PRESS.—M.J.  
ST. PETERSBURG, May 14.—Telegrams received from many towns in the provinces state that the workmen today mostly ceased work, but that there were few disturbances except at Volodoga, where rioting occurred. Passants stoned workmen, who forced shops and factories to close, and shots were fired. An excited crowd rushed to the Town Hall, which was set on fire. M. Loginsky, the Governor, was wounded, together with many other persons.

**FIRST MUNICIPAL LAUNDRY.**  
City of Cleveland Does Its Own Washing and Public Is Invited to Look On.  
[BY DIRECT WIRE TO THE TIMES.]  
CLEVELAND (O.) May 14.—[Exclusive Dispatch.] The new municipal laundry, the first in the United States, was opened to the public today. The ceremonies celebrating the event were amusing, if not impressive. A program arranged by Chief of the Park Police, Goldsack, and a large number of auditors and spectators being the city officers.

There were contests in plain and fancy washing, there was a bluing contest, three "curious" tests, a washboard drill and "When the sheets are in the breeze, Sweet Genesvieve," a song composed for the occasion, was sung.

The city will not operate a shop in opposition to regular laundrymen, but will do only city work.

**DEATH NATIONAL AFFLICTION.**  
Ex-President Cleveland Pays Heartfelt Tribute to the Late Carl Schurz.  
[BY THE ASSOCIATED PRESS.—M.J.]  
PRINCETON (N. J.) May 14.—Former President Grover Cleveland tonight paid the following tribute to the late Carl Schurz:

"I look upon the death of Mr. Schurz as a national affliction. Though he had reached length of years and though his activity had waned, he was still a power and strong influence in the life and sentiment of this countrymen. To those who proceed through high, disinterested patriotism, he continued to be an inspiring leader, to those who love unflinching moral courage he was a constant teacher, and to those who aspired to the highest ideals in civic life he was an unfading guide."

"His example and lofty career are left to us to stimulate the young to virtuous emulation and encourage all in right living. Such can ill be spared and what they leave to us should be carefully held as a precious legacy."

**BURIAL IN SLEEPY HOLLOW.**  
NEW YORK, May 14.—Partial arrangements for the funeral of Carl Schurz were decided upon tonight. Funeral services will be held at the family residence Thursday afternoon, and will be attended only by members of the family and a few close personal friends. It is understood this plan is in accordance with a wish often expressed by Mr. Schurz. Immediately following the service at the home the body will be conveyed to Tarrytown, where interment will take place in Sleepy Hollow Cemetery.

## DROVE DAGGER INTO ADMIRAL.

Unpopular Russian Official Victim of Workman.

Assassination an Incident of May Day Celebration.

Show of Arms Keeps Peace in Slavonic Capitals.

BY THE ASSOCIATED PRESS.—M.J.  
ST. PETERSBURG, May 14.—Vice-Admiral Kuremich, commander of the port, who was very unpopular with the workmen, was assassinated here today by workmen, whose May Day demonstration he had attempted to stop.

The admiral was killed at the new admiralty works, a government institution, where most of the 2000 men employed there reported for duty at 8 o'clock this morning. They wanted to march to the city and celebrate May Day, but finally agreed to work until 2 o'clock in the afternoon. The admiral, however, made a speech to the men, saying that he could not agree to their leaving work at 2 o'clock, and the matter was left open.

At about 2:30 a.m., according to an officer who was at the gate of the works, the admiral was walking from a small shop in the works, when workmen, who had been concealed along the corner of the building, leaped on the admiral from behind and drove a long dagger into his back. The admiral fell forward on his face, which was badly cut by stones, and died immediately.

**FAIL TO FIND ASSASSIN.**  
The assassin fled into a large forge, where he was lost among the men employed there. The workmen were promptly surrounded by troops and police, but the search for the murderer was unavailing, his comrades professing ignorance of his identity.

The police say it is evident that the assassination of the admiral had been planned in advance. The dagger, which was found in the spot, was concealed in a round, stick-like sword cane. Among the workmen are many former sailors and revolutionists. Kuremich had a bad reputation among the workmen being regarded as hard and despotic.

Admiral Kuremich participated in the Russo-Turkish war, and in 1903 was second flag officer of the Port Arthur fleet. He returned to St. Petersburg in 1907, and was appointed commander of the port. Politically he was a reactionist.

**MAY DAY DEMONSTRATION.**  
The workmen of St. Petersburg today made an imposing showing in their May Day celebration. Practically every factory, mill and shop in the city was idle, over 200,000 men gathered in the demonstration. Early reports from the interior showed that work generally was suspended in the provincial cities of Russia proper.

While the leaders of the movement pressed their intention to avoid collisions, the radical element, which is boycotting the day with manifestations and the men out of work decided to parade in the industrial sections early in the day with flag bearing intrepid reading "Liberty and Work for Those Out of Work."

The crowd fears were entertained that the day would not pass without bloodshed. The police posted notices that no more manifestations would be permitted, and that reserves of police armed with rifles were massed in the industrial quarters and detachments of infantry and cavalry, though they were kept out of sight, were posted at strategic points. Shortly before noon, came the news that Vice-Admiral Kuremich had been assassinated.

**MOSCOW PRECAUTIONS.**  
[BY THE ASSOCIATED PRESS.—M.J.]  
MOSCOW, May 14.—As a precaution against disorders on May Day, Gov. Gen. Duboussche divided the city into districts and stationed in each detachments of infantry and cavalry and machine guns. In addition to patrols of troops and police armed with rifles supplied with ball cartridges.

**THOUGHT IT AN EARTHQUAKE.**  
Great Powder Explosion Which Hurts No One Alarms Citizens of Bridgeport and Other Towns.  
[BY THE ASSOCIATED PRESS.—M.J.]  
BRIDGEPORT (CT.) May 14.—Four magazines in the testing grounds of the Union Metallic Cartridge Company exploded at an early hour this morning, the concussion shaking the whole city. There were two explosions with but a second interval, and a large amount of powder was destroyed. The four magazines contained 25,000 pounds of powder each. The cause of the explosion is not known. The explosion fell in the city and apparently there is not a single large pane of plate glass left in business buildings and few private residences were without broken windows. The damage seems confined entirely to broken glass and the cartridge company has given notice that property owners will be compensated for this damage.

The people of Bridgeport believed an earthquake had visited them and the scenes on the streets were quite exciting, for hundreds of residents fled out of doors in their night clothing, carrying a large amount of property. The city was nearly flooded with inquiries from other places where disturbances of even greater resemblance to an earthquake than locally were feared. From all parts of the state came word that the shocks were felt with force enough to awaken people from sound slumber.

**FELT ON LONG ISLAND.**  
[BY THE ASSOCIATED PRESS.—M.J.]  
EASTPORT (L. I.) May 14.—Two distinct shocks, coinciding in time with the Bridgeport explosions and as violent as to send almost the entire population of this village into the streets in their night clothing, were felt here today. Houses were jarred, dishes rattled and beds shook.

**NEW HAVEN.** (CT.) May 14.—Two shocks from the Bridgeport explosion were felt in this city very distinctly. Windows rattled and in some houses dishes were shaken from shelves.

**FAIRBANKS DUE IN BIRMINGHAM.**  
BIRMINGHAM (Ala.) May 14.—Just before the close of today's session of the Methodist conference a telegram was read from Vice-President Fairbanks, stating that he would arrive in Birmingham Thursday night, and remain in the city all day Friday. The message asked if this would be satisfactory to the conference, and upon motion it was decided to hear from Mr. Fairbanks and Dr. W. B. Matthews of Berkeley, Cal., fraternal delegate from the Methodist Episcopal Church, Friday evening.

## PRESIDENT REPLIES.

(Continued from First Page.)

enact a provision entirely forbidding interdictory injunctions.

**AS TO BAILEY.**  
"I found myself in entire accord with Senator Bailey as to the rules of constitutional law applicable to the situation, with the exception of those relating to the power of Congress to forbid all interdictory injunctions, upon which I simply did not offer any final opinion, only saying that Mr. Bailey's argument needed an answer. An attempt was then made to adopt phrasing which would effect the intention of the two Senators. I made some notices upon this branch of the subject, and at the close of the interview said to Senator Bailey that I would put my understanding of their views upon the question of the phrasing in writing and send it to him, and if it met with approval, submit it to him."

"The I did, and upon the next day sent the annexed memorandum to Mr. Bailey, enclosed in a letter, which read as follows:

"April 4, 1908.—My Dear Senator: This rough draft is, as I understand, your suggestion. I think it quite likely that this draft might be bettered, but I simply send it to see if I understand you."

"Very truly yours,  
"Joseph W. Bailey, United States Senator."

**PRINTED IN THE RECORD.**  
"The conference among the Democratic members of the Senate then occurred, the press reports of which indicated that there was not an entire agreement among them."

**TILLMAN CALLED.**  
"Mr. Tillman, however, called to assure me that the prospects of an agreement among a large number of Democratic Senators was good. I heard nothing further from Senator Bailey until a later day. I informed you of what occurred in an interview between the two Senators and me, and you told me that you had been informed from various sources that there was an agreement among the Democrats on any amendment would be impossible."

**TWO SENATORS' SUGGESTIONS.**  
"The two Senators called upon me again upon the 2d or 3d of April. They were somewhat further apart in the form of the amendment. The suggestion was made that it might be possible, after voting upon the proposition forbidding all interdictory injunctions, to agree upon a provision which might include the Long amendment and what is known as the Overman amendment."

"I then said that in my opinion, any amendment drawn by any one representing the executive branch of the government, though it were inspired from heaven, would not be accepted without change; that their attitude was natural and proper, and that the suggestion of an amendment which could be adopted should be agreed upon, it ought to be drawn by the Senators themselves."

**SUGGESTED ALLIANCE.**  
"I suggested Senator Allison as a proper person for further conference, and the matter, as far as I was concerned, ended there."

"I remember hearing nothing more of it until I was just about taking the train for North Carolina, when I was reminded by Senator Tillman and Mr. Chandler that you had submitted an amendment known as the Allison amendment."

"There was nothing in our conversation which bound you to any amendment in particular or restricted your liberty at any time to acquiesce in an amendment which you should deem expedient and in the public interest."

(Signed) "H. MOODY, Attorney-General."

**ON THE ANKIOUS SEAT.**  
TILLMAN SEEMS STAGNANT.  
[BY THE ASSOCIATED PRESS.—M.J.]  
WASHINGTON, May 14.—Senator Tillman talked freely tonight, with a number of his callers about the statement issued by the President. He expressed his preference, however, not to be quoted at any time to acquire a reputation for being a man who never heeded to say on the subject of the statement he would say on the floor of the Senate. He expects that the question will be brought to the floor some way in the Senate tomorrow.

Tillman discussed the President's statement and the prospects of an alliance with Senator Chandler, and urged Senator Chandler to issue a statement giving a full history of the whole matter. Tillman expressed the fact that he would not initiate the negotiations with the President regarding the Democratic support for the Republican bill, but that he would go to the White House as an emissary of the President, but that he went there in response to the President's invitation.

**CHANDLER HAS ENOUGH.**  
Former Senator Chandler tonight refused to discuss the statement from the White House. He indicated that he did not intend to issue a statement at this time bearing on the subject. He also indicated that he was anxious to have railroad rate legislation enacted.

Regarding his visit to the White House, Chandler said that, previous to his invitation to call to see the President, March 31, following which he conferred with President Taft regarding the pending rate bill, he had not been at the White House for about a month, and that previous to that in the capital he had no immediate intention of going there, and that he did not go to the White House as an emissary of the President, but that he went there in response to the President's invitation.

**SAN JOSE LOCAL UNION 133.** American Federation of Musicians, yesterday received a check for \$500 for relief from the headquarters of the federation, at St. Louis. No money was expected.

**HISTORY WILL NOT FORGET.**  
Services of Schurz to the Nation Estimated by the President.  
[BY THE ASSOCIATED PRESS.—M.J.]  
WASHINGTON, May 14.—President Roosevelt today sent the following telegram to Carl L. Schurz, at New York:

"Pray accept the expression of my profound sympathy in the death of your father. This country has lost a statesman of Lincoln's generation whose services, both in peace and in war, at the great crisis of the republic's history, will not be forgotten while history lasts."

**THUGS ATTACK W. S. EDWARDS.**  
William S. Edwards, president of the W. S. Edwards Manufacturing Company, No. 42 Wabash avenue, and former president of the Gas and Electrical Figure Manufacturers' Association, was the victim of a murderous assault, shortly after 6 o'clock tonight. Two men attacked him near his place of business, and, after knocking him down with brass knuckles, dragged him into an alley and kicked him about the head and body until he became unconscious. Edwards is now at the Chicago Emergency Hospital, where physicians say his condition is dangerous. Strike troubles are said to be the cause of the attack, and the police are searching for two men believed to be hired slugs of the Gas and Electrical Figure Manufacturers' Union. Since the inception of the strike, Edwards has been active in his efforts to bring about a settlement, and it is said his actions have caused bitter feeling among some of the strikers.

**DECLARE FOR NEW FAITH.**  
BIRMINGHAM (Ala.) May 14.—By a vote of 151 to 107, the general conference of the Methodist Episcopal Church, South, today declared itself in favor of the creation of a committee to prepare a new statement of faith. Other branches of Methodism will be invited to unite with the southern church in the preparation of such a statement of faith, and such a statement of the doctrinal system as is called for in the twentieth century.

**TRY, TRY AGAIN.**  
The effort to create sentiment with a view to making uniform secular and ecclesiastical divorce laws was criticized by Rev. George A. Thayer of Cincinnati, who spoke on the subject at the opening of the Unitarian Conference today.

"If a man or woman has, through good cause, been unable to succeed at one venture, let another be tried," said Dr. Thayer. "Because one matrimonial experience is a failure, the second should not be refused."

## THE PUBLIC SERVICE.

## SUMMARY OF THE DAY.

Following an inspection of the fire and earthquake ruins about San Francisco Bay, the Building Commission yesterday recommended to the Council a number of amendments to our building ordinance.

Residents of Calhoun Valley made a strenuous effort yesterday to persuade the Council to call an election to vote on the annexation of territory lying north of Rampart street and west of the city limits.

Jackson street scored against the Southern Pacific before the Board of Public Works yesterday, only to be blanketed in the Council.

Loy Wilson, an seventeen-year-old boy, has broken into Whittier to try to redeem himself. He wanted to be sent to the reform school so he might be under legal restraint.

James Darling, aged flower thief, has a prior conviction against him in Police Court, and therefore faces "life" in prison.

## NORTHERN TREMBOR EXPOSES FAULTY BUILDING LAWS.

Los Angeles Commission Makes Recommendations as Result of Inspection of San Francisco's Ruins. With Good Work in All Branches We Have Nothing to Fear.

"In general, good work in all branches goes a long way toward making buildings earthquake and fire resisting."

This is the epitome of the comment of the Los Angeles Building Commission regarding the effect of fire and earthquakes on the buildings of the cities about the Golden Gate.

For ten days the commission inspected the ruins of the buildings and the conditions of those still standing or only partially destroyed. The result of their investigations are embodied in a report made yesterday to the Council.

The commission is composed of men appointed by the Council several months ago to draw a new building ordinance for this city. Each is an expert in his line. The product of their efforts is expected to give us a building ordinance the peer of that of any city in the country.

In its report the committee calls for special attention of owners, architects and builders to the following "observations":

## WHAT THEY LEARNED.

Quality and adhesion of mortar, thorough setting of brick before laying, full setting of all joints, absence of voids, and all other factors, especially of nature and character of the mortar.

Thorough, frequent and efficient anchoring of all joints, absence of voids, and all other factors, especially of nature and character of the mortar.

## FEAST OF FLOWERS GORGEOUS PROMISE.

AS THE date for La Fiesta de Los Flores nears, interest in the feast of the Golden State, the green representing the olive and red, the incomparable wines of the Southland—have stirred the resident and visitor, and all are ready to join in the delights of our feast of the flowers. It is gorgeous in promise.

It is no easy thing to bring about the entertainment that is to be given. The specialties of one year are of no use the next year, and the parade is new. It takes the ingenuity of the committees to bring about something new. This year it will not only be the electrical floats, but the floral parade will be something the like of which never has been seen in California.

## VACATION FOR FLORAL PARADE.

## PUBLIC SCHOOL PUPILS TO BE GIVEN HOLIDAY.

Date Fixed by Board of Education for Closing of Term—Soldier Students to Lose Nothing by Reason of Absence on Duty at San Francisco.

The city schools will close for the summer vacation on June 1, in accordance with the action of the Board of Education last night, but the board wished to do some more figuring on the finances before deciding to reopen them on September 1, in accordance with the recommendation of the superintendent. The question will be determined two weeks hence.

The next question of most interest to the pupils concerned Fiesta vacation. After discussing the matter at length, it was decided to declare Tuesday, May 22, a holiday, that being the day of the floral parade.

It will be of interest to the boys of the High School and of the Polytechnic High School to know that those of the reform school who did service in Company A, Seventh Regiment, at San Francisco, will lose none of their school credits by being absent on duty at San Francisco.

The matter was called up by Mr. Stephens.

The schools contributed in cash \$150 to the relief fund of the city.

Engineer Tibbets has been publicly commended by Chief of the Fire Department Walter Lips, but the engineer refuses to believe that he has done anything to be commended for.

Engineer Tibbets is ranked as first class and has been in the department five years.

Chief Lips explains the fact that no driver was on the box by saying that the regular driver, Charles Huston, was off duty and R. G. Hammel, an extra driver, was in his place. Hammel did not wake up when the alarm came in, and his services were not required by the fire department.

The fire ladders could not be prouder of anything than they are of the big rig. They say the horses knew it was their business to get the engine to the fire and intended doing it in some way, and that they reasoned something had happened which there was no time to explain, so set out on their own hook to do what they knew was their duty.

Automobiles, handsomely decorated, driven along the streets in advance of the main part of the parade, will form one of the most interesting and elaborate displays. The decorations on these will be finer than ever before attempted, and there will be more of them. In fact, the same can be said of every part of the parade. Most six-in-hand, victorias, grass-children's vehicles, and floats are the reports given out, and the entries prove it.

Secretary Zeehandelaar is sending out cards—showing the divisions, classes and positions in the parade to all who have entered, and it is necessary that they shall be on hand at 9:30 o'clock Tuesday morning in order that the judges may complete their work and allow the parade to move at 11 o'clock sharp.

One of the fine features provided in the daylight fireworks, to be given at Acot Park Monday afternoon, May 21. The contract calls for the best possible to be secured.

## A GALLANT DEED.

## Engineer Tibbets of the Fire Department Climbs Over Swaying Engine to Stop Runaway Horse.

By his bravery Engineer William W. Tibbets, of Fire Engine No. 3, probably averted a serious accident Saturday night, just as the theaters were out. An alarm rang in from Third and San Pedro streets, and the firemen in the House on Hill near Second street started. But the big engine did not get out ahead. The ladder truck and hose cart went and the engine dashed out and turned south on Hill street. The big gray team were running at their best speed and Engineer Tibbets was hanging on behind and getting up steam.

There seemed to be something uncertain about the course of the big engine, and Tibbets peered over the top of the box. Without delay he climbed over the swaying engine and cautiously made his way to the driver's seat. At Third and San Pedro streets the engine was stopped at the fire plug and the engine jumped from the driver's seat and the gray team stood quiet while he coupled up, for he was the only man with the engine.

Engineer Tibbets has been publicly commended by Chief of the Fire Department Walter Lips, but the engineer refuses to believe that he has done anything to be commended for.

## WORLD FAME OF THIS CITY.

Head of Railway Syndicate  
Comes for Points.

Says Los Angeles Lines Are  
Best in World.

This Country to Be a Vast  
City of Homes.

"There is nothing like it in the world. The famous electric railway system in Berlin, Germany, cannot compare with it. It is complete in every detail," said J. J. Helm, banker and street car magnate of Kansas City, last night at the Alexandria Hotel, agent the perfect city and long distance electric railway service of Los Angeles.

Mr. Helm has studied the street car business in almost every city of size in the world. He learned the business of carrying the population of a big city, from its very beginning, and is qualified to pass upon Los Angeles electric roads. He continued:

"The syndicate of business men of Kansas City and St. Joe, of which I am the head, contemplates the construction of a long distance electric road which will connect Kansas City, St. Joe and Excelsior Springs, Mo., and which will entail the construction of about ninety miles of new road. We want the best road possible and to gather data for its construction and operation I came to Los Angeles. The same name of the electric roads of Los Angeles have reached throughout the United States, and naturally our syndicate turned to the City of the Angels for pointers on street car service.

### HIGH PRAISE.

"I have spent the last few days riding in the Pacific Electric cars out into the surrounding country and it has been a revelation. The equipment is of the best; the roadbed could hardly be improved and the personnel of the operative is above reproach. I had often heard that this city had the best service in the world, but I am astounded at its extent.

"I was in Los Angeles fifteen years ago, when there was but one street car line to the beaches. At that time I had to take a stage to go to 'Rocky Baldwin's' ranch and other adjoining places. It was an all day trip, and while the natural advantages and the beauty of the trip made it worth while, it was frightfully tiresome. Now at any hour of the day you can be whisked through the sweet-scented, fruit-laden orchards to any of these places and be back within a couple of hours.

"Your city service is also of the best. The people of Los Angeles ride more than those of any city I have ever been in. They have been educated up to it, both by the skill of the management and the excellence of the service.

### IT MUST COME.

"There is only one objection I can find to this city and long distance lines. If I may be allowed to criticize, and that is the lack of an hourly night car service. The installation of such a service would do much toward benefiting and extending the population of the outlying districts.

"Los Angeles is the distributing point for all of Southern California. These electric lines bind the suburbs to the city in a way infinitely superior to the steam lines. There is something about an electric line that makes for a closer feeling of connection between city and suburb as compared with a steam railway. These electric lines reaching out into the beautiful surrounding valleys and uplands have been a wonderful factor in the growth of Los Angeles.

"I wish I could return here in ten years. In fact I will, if I am alive then. I can see in my mind's eye what this city will be.

### UNPREJUDICED OPINION.

"In the first place your population will exceed 500,000, and that is not a high figure. In less than twice that time I know that there will be the greatest city on the Pacific Coast right here. There will be a continuous city from the foothills to the sea shore and there will not be anything very startling about that either. It is in the way of natural growth and cannot be helped.

"Residents of Los Angeles, while they naturally think their city is great and growing, do not see it as we easterners see it. What your people see here we see magnified ten-fold. You people do not realize what a great center of population Southern California, with the city of Los Angeles as its center, is destined to become.

"Other things being equal, and they are fast becoming so, I think that every one in the United States would like to live in Southern California.

"Your beach towns and cities will become a second Cape Cod, only on a more dignified scale. There will be a solidly built up residential city between this place and the coast. Homes between the city and the foothills will be at a premium.

### PLENTY OF ROOM.

"I do not think that land values in the present center of your business district will enhance greatly, but on the other hand the top-notch price now secured from this property will obtain in a widely increased area. There is plenty of room in this vicinity for growth and there will be no congestion. There will be a gradual and steady advance in all properties that are now on the outskirts of the business district and will reach into the present residential section.

"I think that fifty years from now we will see Southern California one great home city, the greatest home district in the world, with vantage points crowned with big industries which will meet the needs of its millions of population, and with the seaports the termini for dozens of trans-Pacific steamship lines. Railroads will fight for the privilege of entering this district, and the business centers of Los Angeles, then the greatest city west of Chicago, lost in a wilderness of palatial homes."

The dinner table was adorned with red and white. A large glass bowl filled with red and white carnations was in the center of the table and bands of satin ribbon and fluffy tulle bows completed the striking effect. Place cards were of red ornamented with gold lettering. Besides the host and hostess and guests of honor covers were laid for: Mr. and Mrs. A. C. McDonald, Mr. and Mrs. Landon H. Mr. Varie Recovered.

The many friends of Clarence Varie, son of the late Judge R. H. F. Varie will be pleased to learn that he is rapidly recovering from the effects of the operation for appendicitis performed upon him at Berkeley, the day after the earthquake. Mrs. Varie, who

roses, carnations, ferns and marguerites, birth flower of the bride, were evidenced in the entire decorative scheme. The couple stood beneath an archway of greens and marguerites in whose shadows the bride and groom were seated. The bride wore a gown of pale blue silk and lace with picture hat of white and blue plumes. Her only ornament was a crescent of diamonds, the gift of the groom. Immediately after the ceremony the guests were conveyed in automobiles to the ranch and handsome home of the groom and here a fine wedding supper was set. A special feature of the feast was the champagne which was opened. This came from a case which had been given the groom's parents, just twenty-six years ago, on their wedding day. They kept it and decided not to open it until their first son was married. Hence the bright fizz. Christopher served the supper. As the bride party approached their new home, a great American flag was flung up the high pole overhead, sending out its greeting of glory and freedom to the pair.

The bride is the last of "Lucky" Baldwin's nieces, and at the spread Baldwin himself toasted the bride in a graceful speech, and is preparing a grand surprise for them, which he refuses to divulge as yet.
